The screenshot shows the NetBeans IDE 8.0.2 interface. The top menu bar includes File, Edit, View, Navigate, Source, Refactor, Run, Debug, Profile, Team, Tools, Window, and Help. The toolbar contains various icons for file operations and development tools.

The left sidebar shows the 'Projects' view with a tree structure for the 'PBO' project, including 'Source Packages' (A, B, C) and 'Libraries' (JDK 1.8 (Default)). The 'main - Navigator' view shows the 'Members' of the 'Nilai' class, including methods like 'getNilai()', 'info()', 'main(String[] args)', and 'totalNilai(int nilaiUTS, int nilaiUAS, int nilaiTugas)'. The 'main' method is highlighted in the code editor.

The main editor displays the source code for the 'Nilai' class:

```
10  * @author acer
11  */
12  public class Nilai {
13      int nilaiUTS;
14      int nilaiUAS;
15      int nilaiTugas;
16      public void totalNilai(int nilaiUTS, int nilaiUAS, int nilaiTugas) {
17          this.nilaiUTS = nilaiUTS;
18          this.nilaiUAS = nilaiUAS;
19          this.nilaiTugas = nilaiTugas;
20      }
21
22      public double getNilai() {
23          double nilaiTotal = (nilaiUTS + nilaiUAS + nilaiTugas)/3;
24          return nilaiTotal;
25      }
26
27      public void info() {
28          System.out.println("Nilai Total \n" + getNilai());
29      }
30
31      public static void main(String[] args) {
32          Nilai nilai = new Nilai();
33          nilai.totalNilai(90, 90, 90);
34          nilai.info();
35      }
36  }
```

The 'Output - PBO (run)' window at the bottom shows the successful execution of the program, displaying 'Nilai Total' and '92.0'.
